

Gewone sommen en puntsommen

1. Vergelijk uitkomsten:

2 Berekeningen hebben telkens dezelfde uitkomst. Kleur deze hokjes in met dezelfde kleur.

13 + 5	12 + 7	10 + 6	14 + 3	11 + 4	15 + 5
9 + 7	8 + 9	11 + 8	17 + 3	14 + 4	10 + 5

2. Los de volgende sommen op:

2 + 5 =	7 + 1 =	3 + 6 =	9 + 0 =
4 + 6 =	3 + 4 =	7 + 2 =	2 + 3 =
3 + 1 =	1 + 2 =	5 + 5 =	4 + 4 =
5 + 3 =	4 + 2 =	4 + 1 =	3 + 3 =
6 + 2 =	2 + 7 =	8 + 1 =	2 + 2 =

3. Schrijf het ontbrekende getal in de som en teken de ontbrekende bolletjes erbij.

$8 + \square = 10$

$5 + \square = 7$

$1 + \square = 9$

$6 + \square = 10$

$2 + \square = 4$

$5 + \square = 8$

$1 + \square = 7$

$4 + \square = 8$

$2 + \square = 9$
